Save millions with actionable insight across the enterprise

ServiceNow® provides a consolidated view of apps, software and cloud costs. Intuitive workflows and Platform capabilities surface meaningful usage and cost data needed to right-size future purchases and inform smarter business decisions. Respond quickly to cost-saving opportunities with full life cycle insight.

Built on the Now Platform®
Connect the enterprise through digital workflows.
Connect people with automated processes to drive cross-functional collaboration at every step of the asset lifecycle.

- Gain actionable insight across on-premises and cloud environments
- Drive the full IT lifecycle and align infrastructure costs with visibility from a native CMDB
- Proactively workflow software and application intelligence to cloud infrastructure and app rationalization teams
- Invest more in innovation and strengthen business resilience in any economy with a single Platform for IT

A native CMDB powers full lifecycle process workflows

“I need to align EOL software to rationalize my apps.”

“I need to optimize software and cloud usage.”

“I only need to buy the software required for priority projects.”

“I need to automatically provision my clouds.”
