Safely reopening the workplace with the Safe Workplace suite

The ServiceNow® Safe Workplace suite helps organizations reopen the workplace and support the health and safety of their employees after emergencies and pandemics like COVID-19.

1. Work from home
   - Employee Readiness Surveys
   Evaluate workforce readiness through employee surveys before they return to the workplace.

2. Prepare to return
   - Workplace Safety Management
   Configure clean, socially-distanced workspaces and manage employee arrival shifts for a safe return when offices are ready to open.

3. Enter the workplace
   - Employee Health Screening
   - Workplace PPE Inventory Management
   Ensure that sick employees stay home and healthy employees use PPE.

4. At work
   - Contact Tracing
   - Health and Safety Testing
   Minimize transmission of infectious diseases and identify affected employees at the workplace.

5. Work on-the-go
   - Employee Travel Safety
   Support safe travel by verifying destination conditions, monitoring health status, and keeping a contact log.

6. Continuous monitoring
   - Safe Workplace Dashboard
   Get a comprehensive view of workforce and workplace readiness for the return to workplace process.
