

Now on Now

Enabling our new world of work

Challenges

In 2021, we onboarded 5,000 new employees. We needed to support our growing hybrid workforce while ensuring their safety, privacy, and productivity in a changing environment.

Solution

We use **Workplace Service Delivery**, our very own suite of applications we designed to help companies navigate the pandemic. Built on the Now Platform®, we rely on these apps to provide safe, flexible, and sustainable ways to be productive at home or in the office.

We used our own products to get it done:

99%

of ServiceNow offices reopened globally

17.5K+

employees able to safely return to our offices

60K

office reservations managed
