

# ServiceNow Assure

ServiceNow and your preferred professional services provider collaborate to implement your solution.

ENGAGE WITH YOUR ACCOUNT TEAM TO LEARN MORE

Your preferred professional services provider is accountable for your project but works in close collaboration with the Expert Services of ServiceNow Assure to infuse ServiceNow's product expertise and vision into the project and assure targeted business outcomes and platform health.

## Benefits

ServiceNow Assure focuses on assuring that your implementation project:

- Efficiently and effectively uses available expertise to drive success
- Is planned to align to desired business outcomes and uses the Now Platform in the best possible way to achieve desired value
- Follows ServiceNow leading practices for architecture and design
- Aligns to the ServiceNow roadmap and innovations
- Focuses on a healthy platform ready for growth and innovation

## Why consider?

Assure your targeted outcomes with a "better together approach".

### The power of expert collaboration to assure outcomes and success
